

Smart Interview Platform

React 19 · Java Spring Boot · Python FastAPI · Groq LLaMA-3 70B

● **Frontend – React 19**

- Vite + Tailwind CSS, dark-mode UI
- PDF drag & drop resume upload
- Sequential 15-Q interview player
- Client-side timers + anti-cheat
- Parsed resume cached in browser
- ATS graphs + feedback renderer

● **Backend – Java Spring Boot**

- Central orchestrator / API gateway
- Receives HTTP REST from frontend
- Routes to Python AI via HTTP
- Assembles final JSON response
- Calculates best match role
- Java 17 · Maven · Spring Boot

● **AI Engine – Python + Groq**

- FastAPI · Python 3.10+ · Stateless
- resume_parser · resume_analyzer
- question_generator · answer_evaluator
- LLaMA-3.3 70B via Groq Cloud
- 6 LLM calls per 4-role session
- UUID seed for answer randomness
